

Regulation EC 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Regarding the following product

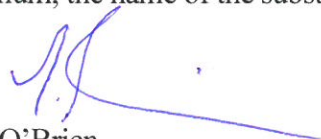

Reflex LTD

Transcontinental AC Ltd classifies the above products as 'articles' in accordance with Article 3(3) of REACH and confirms they do not contain any substances that are intentionally released under normal or reasonably foreseeable conditions of use. The registration requirements under Article 7.1 of REACH therefore do not apply.

Transcontinental is aware of its obligation under Article 7(2) of REACH to notify the European Chemicals Agency (ECHA) if any substance of very high concern (SVHC) is present in any product in quantities totalling more than 1 tonne per year, and at a concentration greater than 0.1 % wt/wt of the article. Substances requiring notification are named on a Candidate List first published by ECHA in October 2008 and periodically updated and extended. Transcontinental constantly monitors development of this list and confirms that according to the most recent update on the 16th July 2019, the above products do not contain any substance that requires notification to the best of our knowledge and belief.

Transcontinental undertakes to notify ECHA in accordance with the REACH implementation timetable if any candidate SVHC is present in any of its products above the concentration and tonnage thresholds indicated.

Transcontinental is aware that under Article 33 of REACH it is required to provide sufficient information to recipients of its products to allow their safe use. Where any article produced or imported by Transcontinental contains a substance meeting the criteria in Article 57, and identified in accordance with Article 59(1), in a concentration above 0.1% wt/wt, we will provide the recipient of the article with sufficient information available to us in order to allow its safe use including, as a minimum, the name of the substance.

RoHS CERTIFICATE OF COMPLIANCE

Reflex LT Digital

This statement certifies that Reflex LT Digital does not, to the best of our knowledge, contain substances listed in the following table above the Maximum Concentration Value as outline in Directive RoHS 2015/863/EU

Substance Group / Specific Substance	CAS No.	Maximum Concentration Values
Lead/Lead Compounds		0.1% by weight (1000ppm) in homogeneous materials
Mercury/Mercury Compounds		0.1% by weight (1000ppm) in homogeneous materials
Cadmium/Cadmium Compounds		0.01% by weight (100ppm) in homogeneous materials
Chromium (VI) Compounds		0.1% by weight (1000ppm) in homogeneous materials
Polybrominated Biphenyls (PBBs)		0.1% by weight (1000ppm) in homogeneous materials
Polybrominated Diphenylethers (PBDEs)		0.1% by weight (1000ppm) in homogeneous materials
Bis (2-ethylhexyl) phthalate (DEHP)	117-81-7	0.1% by weight (1000ppm) in homogeneous materials
Benzyl butyl phthalate (BBP)	85-68-7	0.1% by weight (1000ppm) in homogeneous materials
Dibutyl phthalate (DBP)	84-74-2	0.1% by weight (1000ppm) in homogeneous materials
Diisobutyl phthalate (DIBP)	84-69-5	0.1% by weight (1000ppm) in homogeneous materials

To the best of our knowledge, our raw material suppliers do not use the above substances in the manufacturing of their products. However, we do not routinely analyse our products for the above substances, nor do we require our raw materials suppliers to do so.

This statement is based on our current level of knowledge. Since conditions of use are outside TC Transcontinental Advance Coatings control, TC Transcontinental Advanced Coatings makes no warranties, express or implied, and assumes no liability in connection with the use of this information.
