

## DECLARATION REACH REGULATION (EC) 1907/2006

### MYLAR® , MELINEX® , KALADEX® POLYESTER FILMS

AS MANUFACTURED IN UK, EUROPE, US OR CHINA

DuPont Teijin Films is well aware of the legislative developments regarding the regulation of the industrial chemical substances in the European Union and in particular Regulation (EC) 1907/2006 ("REACH").

DuPont Teijin Films is fully committed to work with its customers and suppliers along the entire supply chain to develop workable solutions to the challenges of REACH.

As per Article 3(3) of the REACH Regulation and the ECHA guidance on 'Requirements for the substances in articles' as published in May 2008 Polyester film is classified as an article.

There are no substances intended to be released from the above film under normal or reasonably foreseeable conditions of use from the film as defined by Article 7(1).

As such, there is no need to register articles Mylar®, Melinex® film or to list the intended uses of the substances in the film in a Safety Data Sheet (SDS sheet) within EU countries.

#### SUBSTANCES OF VERY HIGH CONCERN (SVHC)

The intent of this statement is to clarify how the DuPont Teijin Films products are affected by the REACH 'Candidate List'.

DuPont Teijin Films confirms that the above products do not contain any of the substances listed in the 'Candidate List of Substances of Very High Concern for Authorisation' as below, in a concentration above 0.1 % weight by weight (w/w).

This list can be found on the ECHA website

<https://echa.europa.eu/candidate-list-table>

We are committed to comply in every respect to the requirements of REACH and relevant amendments.

Please be sure that we are closely monitoring any issue that may affect our supply chain and that we will communicate in due time, any issues that could affect our supply to you.

This statement is based on our current level of knowledge and covers commercial and experimental films as supplied by DuPont Teijin Films at the date of issue and without any further modification. Since conditions of use are outside DuPont Teijin Films control, DuPont Teijin Films makes no warranties, express or implied, and assumes no liability in connection with any use of this information.

Mr Keith Kilmartin  
Regulatory Affairs Manager &  
Product Steward Europe  
DuPont Teijin Films

8<sup>th</sup> July 2021

DuPont Teijin Films has no intention to change its product portfolio due to the introduction of REACH under the condition, that REACH does not impose a commercial or technical burden, which could impact the health of our business. However, since DuPont Teijin Films depends on its suppliers, DuPont Teijin Films is not in full control of this decision. Based on industry assessments, it is likely that a certain number of chemicals will no longer be available to the European market. This may necessitate product reformulation, and subsequent product/article re-qualification, or, in more critical cases, to a complete product change.

This information is based on our current level of knowledge and expresses only our intention. It does not constitute a binding obligation. Whilst the information is provided in good faith, no representations or warranties are made with regards to its completeness or accuracy and no liability will be accepted for damages of any nature whatsoever resulting from the use of or reliance on the information. As we cannot be aware of all aspects of your business and the impact REACH Regulation may have on your company, we strongly encourage you to get familiar with REACH, its requirements and timelines.
